

FOR IMMEDIATE RELEASE

MetaPass Expands Executive Management Team

Appoints Software Industry Veteran as Chairman

Sunnyvale, California – May 14, 2008 – MetaPass, Inc. today announced that Dr. Jonathan Buckheit has joined the company as its Chairman. Dr. Buckheit's career in technology and software development includes ten years as founder and CEO of Yield Dynamics, Inc., a provider of yield management software to the semiconductor and flat-panel display industries that he led to become the most profitable company in its field upon its sale to MKS Instruments, Inc. (Nasdaq:MKSI) in 2007. He holds a Ph.D. in mathematical statistics from Stanford University.

David Dupouy, CEO of MetaPass, commented, "We are fortunate to have attracted an executive of Dr. Buckheit's distinction to join our top management team. With the recent allowance of our key technology patent, and our sales increasing 200% in the most recent year, MetaPass is entering a rapid growth phase that will greatly benefit from his leadership and experience."

"I am excited to join MetaPass and look forward to assisting David and his team to realize the full commercial benefits of MetaPass' enterprise single sign-on solution," added Dr. Buckheit. "It is the only single sign-on product available that works seamlessly and quickly at customer sites by requiring absolutely no integration work, and will maintain this unique position through the broad patent MetaPass has on this technology."

About MetaPass, Inc.

Headquartered in Sunnyvale, California, MetaPass provides the industry's only multiplatform identity and access management software that does not require scripting or programming for customer integration. Enterprises around the world benefit from MetaPass patented platform to control and simplify access to their digital assets, strengthen security, and comply with regulations.
